KIEN NGUYEN DUC

VUEJS DEVELOPER

L 0866015505 ☑ kiennguyenduc267@gmail.com Ø facebook.com/cien267 **♀** Ha Noi, Viet Nam

SUMMARY

I am a front-end developer with strong expertise in Vue is and modern web technologies. I am passionate about building responsive, userfriendly interfaces with clean and efficient code, experienced in migrating legacy Vue 2 applications to Vue 3, reducing build times and enhancing user experience. Previously worked as a back-end developer, giving me a deep understanding of APIs, databases, and server-side logic. This experience allows me to build seamless, efficient, and well-integrated front-end applications that communicate effectively with back-end systems. I am a quick learner with a problem-solving mindset, always eager to improve my skills, explore new technologies, and stay updated with the latest industry trends. I thrive in dynamic environments and am always ready to take on new challenges to grow as a developer

EDUCATION

Posts And Telecommunications Institute of Technology

2018 - 2023

Engineer's Degree in Information Technology

Developed a strong foundation in computer science, software engineering, and problem-solving. Studied algorithms, data structures, networking, and system design. Applied knowledge through hands-on projects, gaining experience in coding, debugging, and software development methodologies.

CERTIFICATIONS

2022 TOEIC 905/990

SKILLS

SKILLS	
Languages & Frameworks	JavaScript, TypeScript, Vue.js (Vue 2, Vue 3), jQuery
Styling	HTML5, CSS3, SCSS, TailwindCSS, Bootstrap
State Management	Vuex, Pinia
Build Tools	Webpack, Vite
Testing & Debugging	Vitest
Responsive Design	Media queries, Cross-browser compatibility
UI/UX Principles	User-centered design, Wireframing (Figma, Photoshop)
Code Version Control	Git, GitHub, GitLab
Development Methodologies	Agile, Scrum (Sprint planning, Daily Stand-ups, Retrospectives,)

EXPERIENCE

Kiotviet | Ha noi, Viet Nam

02/2022 - Current

Frontend Developer

KiotViet provides technology solutions to help small and medium-sized businesses streamline operations. KShip, its transport service, connects merchants with delivery providers like Giao Hang Tiet Kiem, Giao Hang Nhanh, Viettel Post, Grab,..., processing over 55,000 orders monthly.

- Led the migration of KShip's core widget (price checking & order creation) from Vue 2 (Webpack) to Vue 3 (Vite), reducing build time by 90% (from 2 minutes to under 20 seconds) and improving performance significantly.
- Worked with design and backend teams to implement and deploy new front-end features, ensuring consistency between the UI and backend logic.
- · Evaluated new technologies, frameworks and libraries to support high-level demand from users

Deha Viet Nam | Ha noi, Viet Nam

11/2021 - 01/2022

Web Developer Fresher

- Learned about Laravel framework, Linux commands, SQL queries, Vuejs...
- Documented, researched and resolved technical issues
- Collaborated positively with peers and other staff members to maintain friendly, supportive, and cooperative work atmosphere

eUp | Ha noi, Viet Nam 07/2021 - 10/2021

cop | Ha hoi, vict itam

Backend Developer Intern

- Started familiarizing with PHP programming language
- Assisted with ongoing projects, did some tasks such as conducting research, gathering data, preparing reports
- Offered to assist with additional tasks to keep projects on-task and learn more about technical problems

HONORS & AWARDS

Second prize in the city-level competition for outstanding students in physics	2016
First prize in the city-level competition for outstanding students in physics	2015
